## **RECOMMENDATION**

Contracts and Specifications staff has evaluated the subject project and recommends No Measure for Community Small Business Enterprise (CSBE) Subcontractor participation, based on the lack of available construction trade areas to be subcontracted. The total estimated cost is \$561,190.16. The Public Works Department (PWD) staff has checked the availability of CSBE Subcontractors and has attached the PWD Project Measure Analysis and Recommendation findings along with other supporting documents for consideration. PWD staff met with the Department of Small Business Development's (SBD) Construction Manager in an effort to seek out additional opportunities for CSBEs. The Community Workforce Program (CWP) is applicable to this project. PWD received a response from the Geocode System which determined that several work locations are in a Designated Target Area (DTA).

## **BACKGROUND**

Speed management is a significant challenge for most communities in the United States. This is particularly true for small, rural communities where the main roadway through the town serves a dual role. Outside the town, the roadway provides high-speed travel over long distances; within the built-up area, however, the same roadway accommodates local access, pedestrians of all ages, on-street parking, bicycles, and the many other features unique to the character of a community or larger city. This convergence of roadway purposes presents both an enforcement challenge for the community and a potential safety problem for the public.

Addressing the issue through law enforcement alone often leads to temporary compliance at a significant cost. A more permanent way to reinforce the need to reduce speed is to change the look and feel of the road by installing traffic calming treatments that communicate to drivers that the function of the roadway is changing. Traffic calming has been evaluated and used extensively within low-speed urban areas in the United States but less so in rural areas where driver expectations and traffic characteristics are different.

Page 2  
RC Action  
20110104

This project is needed in an effort to evoke lower speed on the approach and entrance to various communities throughout Miami-Dade County to encourage drivers to maintain appropriate speeds. It is expected that these communities may experience speed reductions up to 15 mi/h although speed reductions of 5 mi/h are more typical. It is also expected that total accidents may be reduced by 50 percent and injury accidents by 25 percent or more.

**Reason for Recommendation:**

This is a single trade project; none of the primary trade related work (Sign Installation) can be subcontracted as per the Miscellaneous Construction Contract (MCC) specifications. Additionally, staff has met with the design engineer, construction project manager, and members of the industry and concluded that there is no ancillary work required to complete this project which may be subcontracted for CSBE participation.

**Comments:**

PWD processed RPQ Nos. 20110025 and 20110026 under the MCC 7040 Plan (Attached); however, bids received are 13% and 14% above the estimated cost of the project; therefore, PWD rejected bids and will utilize the MCC 7360 Plan re-advertising under RPQ Nos. 20110103 and 20110104, respectively.

Public Works Department (PWD)  
Request for Price Quotation (RPQ) No. 20110026 (MCC 7040 Plan-CICC 7040-07)  
People's Transportation Plan (PTP) Electric Speed Feedback Signs

Dear Mr. Gauthier:

This letter will serve as a notification that the referenced RPQ has been cancelled and has been re-advertised as RPQ No. 20110104. This action is being taken pursuant to the Miscellaneous Construction Contract MCC 7040 Plan, of the General Terms and Conditions, Section 1.4, **CANCELLATION OF SOLICITATION** and Special Conditions, Section 2.7, **PRICING**, subparagraph B.

Those firms that purchased contract documents will not be charged for the new RPQ should they choose to participate. Should you have any questions regarding this matter, please feel free to contact me at (305) 375-2930.

Sincerely,

A handwritten signature in black ink, appearing to read "Frank Aira".
